Project Name	IoT Based Safety Gadget for Child Safety Monitoring and Notification

Create IBM Watson IoT Platform And Device

Device Step: 1 Login To Your Cloud Account

Step: 2 Dashboard

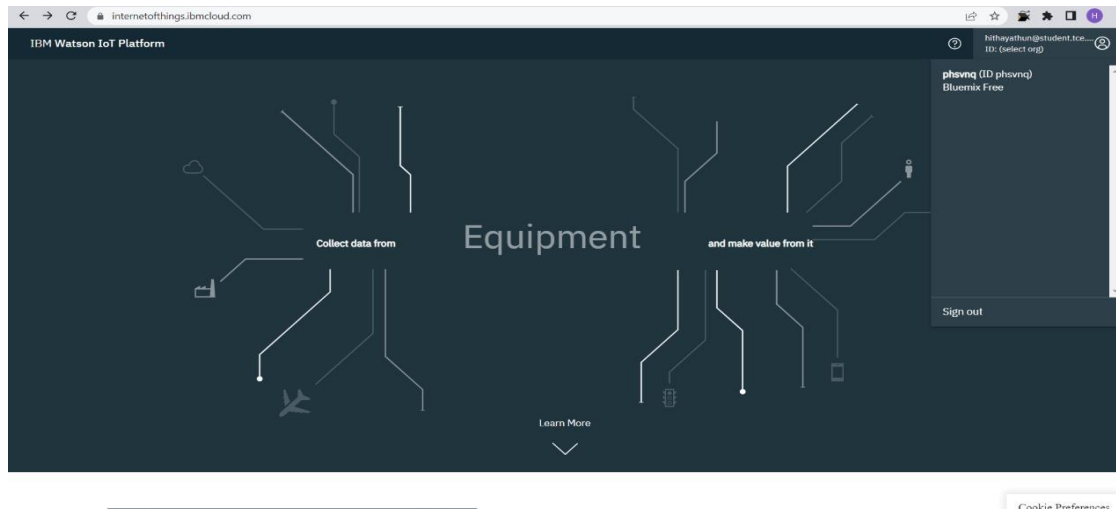

Step: 3 Resource list

The screenshot shows the IBM Cloud 'Resource list' page. The browser address bar displays 'cloud.ibm.com/resources'. The page header includes the IBM Cloud logo, a search bar, and navigation links for 'Catalog', 'Manage', and a user profile. The main content area is titled 'Resource list' and features a table with columns: Name, Group, Location, Product, Status, and Tags. Below the table, there are several expandable categories: Compute (1+), Containers (0+), Networking (0+), Storage (0+), AI / Machine Learning (0+), Analytics (0+), Blockchain (0+), Databases (2+), Developer tools (7+), Logging and monitoring (0+), Migration (0+), and Integration (0+). A 'Create resource' button is located in the top right corner.

Step: 4 Internet Of Things Platform

The screenshot shows the IBM Cloud 'Internet of Things Platform-hm' page. The browser address bar displays 'cloud.ibm.com/services/iotf-service/cm%3Av1%3Abluemix%3Apublic%3AIotf-service%3Aeu-gb%3Aa%2F6467a5609a74b8cb9e98a30795e185b%3Aefa61c72-fb61-402f-ad2d-a8f111c5f...'. The page header includes the IBM Cloud logo, a search bar, and navigation links for 'Catalog', 'Manage', and a user profile. The main content area is titled 'Internet of Things Platform-hm' and features a 'Launch' button. Below the launch button, there is a section titled 'Let's get started with IBM Watson IoT Platform' with a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' Below this, there is a section titled 'Ready for the next level?' with a progress bar and three service plans: Lite, Non-Production, and Production. The Lite plan is selected and marked as 'Active'. The Non-Production plan is marked as 'Ready for the next level?'. The Production plan is marked as 'Ready for the next level?'. The Lite plan includes: Free, 200 MB data-transfer limit. The Non-Production plan includes: Starts at \$500 per month, Capacity limit based on device type. The Production plan includes: Includes IBM Service & Support, Pricing based on number of devices per.

Step: 5 IBM Watson IoT Platform

Step: 6 Can Create And Manage Devices
